# Liane Sampaio

Web Developer - Front End

Fortaleza, Ceará, Brasil

## Resumo

I am a Frontend Developer with nearly three years of experience, specializing in e-commerce CMS, with a particular focus on WordPress. My core skills include CSS, HTML, and JavaScript, but I also have substantial experience working with React.js, Vue.js, and Bootstrap. Within the WordPress ecosystem, I am proficient in using Elementor, WooCommerce, multilingual plugins, and more. My work with WordPress has also made me familiar with PHP, particularly for managing functions.

In addition to my technical skills, I have experience in design, creating layouts with Adobe XD and utilizing Figma for collaborative design projects. I love tackling challenges that help me learn new things and grow my skills. I'm passionate about delivering excellent web development solutions.
